

ARBI DACI

BSc Computer Science at Toronto Metropolitan University

Toronto, Canada - arbidaci@gmail.com - arbidaci.com

SKILLS

DEVELOPMENT & TOOLS

JavaScript | SQL | Python | TypeScript | HTML/CSS | VBA | Git & Github | Linux | Shell Scripting
PowerApps & Power Automate | Boomi | ServiceNow | JIRA | Salesforce | Docker | UIPath

CONCEPTS

QA Testing (A/B, Manual, Regression) | API Integration (REST) | UI/UX | Networking (TCP/IP, HTTP, DNS, Firewalls) | System Flow & Data Mapping | SDLC | Cloud & Virtualization (Azure, AWS, VMware)

WORK EXPERIENCE

TECHNICAL SOLUTIONS CONSULTANT

 **Bank Of Montreal** - AUG/2025 – Present

- Provided enterprise-level technical support for the Coupa Risk Assess (CRA) platform, ensuring stability across distributed banking systems.
- Owned severity-1 incident triage, driving root-cause analysis, documenting remediation steps, and ensuring permanent fixes were implemented across affected workflows.
- Developed, debugged, and enhanced JavaScript-based internal applications, resolving defects, improving reliability, and implementing program changes across risk-assessment workflows.
- Performed manual and regression testing for program changes, validating UI behavior and workflow logic across the CRA platform.
- Collaborated with cross-functional teams (PM, GTPRM, Design, Procurement, Governance) to ensure release readiness, requirement clarity, and SDLC compliance.
- Collaborated within Agile delivery teams, participating in sprint planning, backlog refinement, daily standups, and iterative release cycles to ensure clear requirements for production release
- Designed and deployed PowerApps + Automate solutions that reduced manual workload by 40% and improved operational efficiency across risk-assessment workflows.
- Devised and built a comprehensive CRA system workflow in Microsoft Visio, improving testing efficiency, issue resolution, and solution design.
- Leveraged AI to automate data parsing and bulk updates, reducing manual workload by several hours per incident and improving accuracy across operational tasks.
- Served as AI Specialist for the product delivery team, advising on workflow optimization and integrating Copilot to automate repetitive tasks and enhance team productivity.

- Created and maintained technical documentation in Sharepoint, including SOPs, runbooks, and knowledge articles.

TECHNICAL SUPPORT ENGINEER

 **EnGlobe** - FEB/2022 – AUG/2025

- Delivered enterprise application support for ERP and business systems, maintaining 90%+ SLA.
- Acted as primary escalation point during high-priority production failures, providing real-time updates, validating fixes, and ensuring SLA compliance.
- Led end-to-end testing identifying defects, optimizing workflows, and reducing testing time by 20%+.
- Created and maintained technical documentation in Confluence & Sharepoint, including SOPs, runbooks, and knowledge articles.
- Managed API keys, credentials, DNS/domain configurations, and Azure resources.
- Implemented SSO integration (Azure AD), strengthening security, and reducing tickets by 50%+.
- Implemented migration from Azure to the Boomi platform, coordinating tasks and guiding the support team through the transition.
- Wrote and validated SQL scripts for database updates, and enhancements.
- Facilitated cross-functional technical sessions to support knowledge transfer and accelerate adoption of new tools and technologies .
- Worked within an Agile team, contributing to sprint planning, backlog refinement, and delivery.
- Collaborated with internal teams and escalated to external vendor to identify, test, resolve critical issues, and deploy system upgrade for Vantagepoint ERP and SafeTapp.
- Co-developed an AR monthly reporting tool using Python and Docker, automating data extraction and improving reporting accuracy.
- Built a PowerApps application to streamline support workflows, centralize resources, automate SQL script updates, and integrate Power Automate for internal request routing.
- Owned the internal risk assessment tracker, collaborating with business and technical stakeholders to evaluate and mitigate risks.

APPLICATION SUPPORT ANALYST

 **TD Canada Trust** - JAN/2021 – JAN/2022

- Provided application support for SAP Ariba
